**September 28, 2018**

**Attention: Resource Applications Group**

**RE: Inception Letter of Objection – 100/07-26-069-06W6/02**

To whom it may concern,

Dragos Energy Corp. (Dragos) is informing the AER that during the participate involvement program associated with *Directive 065: Resources Applications for Oil and Gas Reservoirs application* a pre-application concern was received from Inception Exploration (Inception).

The disposal scheme application seeks the AER's approval to dispose of Class Ib fluids into the Cardium formation via the proposed well located at 07-25-069-06W6 (well license No. 362945).

Provided below is a summary of the correspondence between Dragos and Inception during the participate involvement program:

- On June 21, 2018 Dragos sent a notification letter to Inception detailing the Project.
- On June 28, 2018 Inception sent an email to Dragos stating concerns with the Project.
- On July 31, 2018 Dragos responded to Inception's concerns.
- On August 16, 2018 Dragos and Inception had a meeting to discuss the Project and concerns.
- On Sept 4 and 6, 2018 subsequent emails were sent between Dragos and Inception.

A subsequent letter will be sent to Inception Exploration providing the information contained in the Public Notice of Application. This letter will also provide additional information on the AER's official Statement of Concern process should they want to file an official SOC.

For further information or clarification regarding the contents of this letter. Please contact the undersigned.

Sincerely,

Shawn Cody, P. Eng
