**Attention: Mr. Patrick Honess**

**Re: SUMMARY OF ENVIRONMENTAL ACTIVITIES  
01-18-017-18 W4M, ARMADA GAS PLANT**

Dear Mr. Honess,

As committed within the letter dated August 13, 2008, Husky Oil Limited (Husky) completed additional work during the fall of 2008 to address your concerns regarding pesticide application and water runoff from the Armada Gas Plant. Details of the work activities are provided in the copy of the report titled "*Surface Soil Sampling, 01-18-017-18 W4M, dated December 2008*", and attached to this letter. The work completed in 2008 included the following:

- Husky commissioned a third party consultant to conduct a supplemental sampling program.
- Husky installed a north-south culvert and gravel swale under the Armada Gas Plant approach along Range Road 18-5, to direct surface water to the south and divert surface water from the cultivated land.
- Husky's Land Department has been in negotiated compensation.

Husky trusts the information provided is sufficient for your needs at this time. If you require further information please contact Sonia Glubish (403.298.7344).

Sincerely,  
**Husky Oil Operations Limited**

Sonia Glubish,  
Area Environmental Coordinator

cc. Brad Batten, Surface Land  
Amber Wright, Production Engineer  
Al Fefchak, Area Foreman
